Free Mission Pedal when you register Helix Rack and Helix Control

Helix™ Rack is a new kind of guitar processor: it's not only a tour-grade rack mounted multi-effect processor that sounds and feels authentic, it's also the most comprehensive master controller for guitar systems ever built. Start by recreating the tones in your head with the new HX modeling engine - the new amps, cabs, mics, and effects will feel familiar to anyone who has ever spent time in the studio getting the best guitar sounds from both vintage and modern gear. The Helix Rack processor can be controlled by almost any MIDI-capable device, but adding a Helix Control pedal gives you the same functionality as the floor based Helix, opening up a new world of creativity. With the Helix Control pedal connected over a single cable, Rack users can select a block for editing by touching a footswitch, create custom labels for the scribble strips, connect up to three expression pedals, and edit parameters hands-free for the first time using Pedal Edit Mode.

When you purchase and register a Helix Rack processor and Helix Control pedal, you can get even more control with a FREE Mission Engineering Helix Expression Pedal! A \$139.00 Value!

Get a Free Mission Engineering Helix Expression Pedal when you Purchase and Register both a Helix Rack and Helix Control from February 1, 2017 – February 28, 2017
