

## Buy iLoud or iLoud Micro Monitor & get a free T-RackS processor

**iLoud special BOGO offer**

*1 July 2017*

This summer IK has a great deal on our **iLoud** and **iLoud Micro Monitor**. **From July 1st through July 31st, 2017** when you purchase and register an iLoud or iLoud Micro Monitor we will give you a free **T-RackS individual processor** of your choice for **FREE**. That's a value up to \$/€149.99 for Free!

**iLoud** is the studio-quality portable speaker for musicians and audiophiles that will absolutely blow you away with its crystal clear audio and massively loud 40W RMS of power, 2-3 times the volume of comparably-sized speakers. The battery-powered iLoud connects to any smartphone, tablet, laptop or MP3 player, either wirelessly via Bluetooth, or wired to the onboard 3.5mm jack. Plus, iLoud is the only portable speaker with a built-in iRig input circuit, so you can plug in a guitar, bass, keyboard or dynamic mic, and jam along to your music using an iPhone, iPod touch or iPad with real-time effects processing and monitoring.

**iLoud Micro Monitor** is two extremely portable, high-performance bi-amped speakers that delivers a combined 50W RMS of power for solid bass, plenty of headroom and a stunningly defined stereo image. Whether you're recording, editing, mixing or mastering audio, editing video, sound designing or gaming, iLoud Micro Monitor ensures your production will translate well to the huge variety of consumer devices — headphones, home stereo systems, gaming consoles, car audio systems, TVs, and other listening systems.

You can get **iLoud** for just **\$/€249.99** (excluding taxes) and **iLoud Micro Monitor** for just **\$/€299.99** (excluding taxes) from music and electronics retailers worldwide. Plus as a bonus, when you register your **iLoud** or **iLoud Micro Monitor** by July 31st, 2017 you'll receive a **T-RackS individual processor** of your choice for Free during this special promotion! Don't miss out, get your **iLoud** or **iLoud Micro Monitor** today.
